

# Your online audiovisual communication

## Video on demand

■ The PACE video on demand (VOD) service is a tool for your communication. It provides you with access to video recordings of all debates held during plenary sessions. It is available here:

<https://mediacoebox.coe.int>

■ Using this service, you can extract a clip of your choosing from any debate (your speech, for example) in the original language and:

- ▶ share the automatically generated link on social media with one click;   
- ▶ publish it on a website; or
- ▶ send it via e-mail to your contacts, constituents, journalists, etc.

■ You can also enrich the content by adding:

- ▶ summaries of adopted texts;
- ▶ a link to the video of the entire debate;
- ▶ the adopted text(s);
- ▶ the voting result;

as published at: [www.assembly.coe.int](http://www.assembly.coe.int)

## The MediaBox

■ The MediaBox is a multimedia studio for parliamentarians, right next to the Debating Chamber. Using this multi-camera facility, you can record short video clips – statements or interviews – which you can:

- ▶ share on social media;
- ▶ publish on a website or blog;
- ▶ send by e-mail to your contacts or constituents, journalists, or other interested groups.

*And it's so easy to use!*

Book a slot by sending an e-mail to: [mediabox.pace@coe.int](mailto:mediabox.pace@coe.int)

- ▶ Use our teleprompter for filmed statements. Just send us your text by e-mail or bring it on a USB stick.
- ▶ We'll send you a link to your recorded clip, lightly edited if necessary, within the hour.
